27th Annual Meeting

Friday,
October 12th, 2018
San Francisco, CA

Message from the President

The International Society for Anaesthetic Pharmacology (ISAP) meeting highlights innovation in anesthetic drug development, drug delivery systems, and patient safety. Industry collaborators are invited to participate with ISAP in several ways, including the opportunity to make a presentation or have face-to-face meeting with our Board of Directors prior to the ISAP meeting. This is an opportunity to have discussions with the experts in the field who can provide in-depth feedback to our industry partners and our society. In the past these sessions have led to lively discussions and many new opportunities.

If support of our organization, and holding a focus group, is of interest to your company, please feel free to contact ISAP. We are looking for industry support of our meeting to promote

advancements in clinical pharmacology to our anesthesia colleagues and clinician scientists around the world. For more information on past programs or prior meeting agendas, please visit our website at www.isaponline.org.

In return for your support, we offer many year-round benefits, in addition to an exhibit table top at our meeting, which are listed in this Commercial Support and Exhibit Prospectus for 2018. Please consider support of ISAP in 2018. We believe the science presented at this meeting is critical to the advancement of anesthetic pharmacology.

David Drover, MD
President, 2018
